The collection guide.

Drapery hardware for the trade.
Decorative poles. Track systems. Motorization.
Workroom essentials.

BUILT FOR A BRIGHTER SPACE.

COLLECTION OVERVIEW / SEPTEMBER 2026

01 / DECORATIVE POLES

Mirage

Decorative hardware that puts the finishing detail in focus. Explore the Mirage reference pages for finials, poles, and coordinating components.

PLAN YOUR SPECIFICATION

- 01 Choose your finial and finish.
- 02 Provide finished pole length, quantity, and mounting requirements.
- 03 Confirm brackets, rings, and end details with the MDH team.

This guide introduces the collections. Confirm current finishes, specifications, compatibility, and availability with MDH before ordering.

02 / DECORATIVE POLES

Urban

A clean, contemporary decorative collection. Specify the Urban system and coordinating components for your project.

PLAN YOUR SPECIFICATION

- 01 Tell us whether your project requires a pole or traversing hardware.
- 02 Include your finish, mounting details, and overall width.
- 03 List endcaps, brackets, rings, and other components needed.

This guide introduces the collections. Confirm current finishes, specifications, compatibility, and availability with MDH before ordering.

03 / DECORATIVE POLES

Key West

A decorative pole collection for a considered, coordinated finish. Use the reference pages to explore the available components.

PLAN YOUR SPECIFICATION

- 01 Select the pole finish and end treatment.
- 02 Share the overall width and number of openings.
- 03 Confirm rings, brackets, and mounting needs.

This guide introduces the collections. Confirm current finishes, specifications, compatibility, and availability with MDH before ordering.

04 / DECORATIVE POLES

Versailles

Decorative H-rail hardware with coordinating finials and components. Plan the hardware around the way each opening needs to operate.

PLAN YOUR SPECIFICATION

- 01 Specify the finish and finial or endcap.
- 02 Include width, draw direction, mounting, and operation.
- 03 Tell us about bypass or curved requirements.

This guide introduces the collections. Confirm current finishes, specifications, compatibility, and availability with MDH before ordering.

05 / TRACK SYSTEMS

Ruby

Traversing hardware for projects that pair a decorative finish with everyday operation. Review the Ruby reference pages for the current system options.

PLAN YOUR SPECIFICATION

- 01 Specify baton, corded, or motorized operation.
- 02 Include one-way or center-open draw and mounting details.
- 03 Confirm the finish, endcaps, and accessories for each opening.

This guide introduces the collections. Confirm current finishes, specifications, compatibility, and availability with MDH before ordering.

06 / DECORATIVE POLES

Sahara

A decorative collection of finials and coordinating hardware. Build a cohesive specification from the end details inward.

PLAN YOUR SPECIFICATION

- 01 Choose finial style and finish.
- 02 Include the required length, quantity, and bracket needs.
- 03 Confirm the compatible pole and mounting components.

This guide introduces the collections. Confirm current finishes, specifications, compatibility, and availability with MDH before ordering.

07 / MOTORIZATION

Somfy Motorized

Motorized drapery hardware for projects that call for convenient control. Work with MDH to coordinate the track, motor, and controls.

PLAN YOUR SPECIFICATION

- 01 Share width, draw direction, drapery style, and mounting.
- 02 Tell us your power source and control preferences.
- 03 List remotes, chargers, or integration requirements.

This guide introduces the collections. Confirm current finishes, specifications, compatibility, and availability with MDH before ordering.

08 / TRACK SYSTEMS

Roman Shades

Track and shade-related reference materials for your workroom planning. Confirm the system and components with MDH before specifying.

PLAN YOUR SPECIFICATION

- 01 Describe your application and the system required.
- 02 Provide dimensions, quantities, and mounting details.
- 03 Confirm the operation and components with our team.

This guide introduces the collections. Confirm current finishes, specifications, compatibility, and availability with MDH before ordering.

09 / WORKROOM

Workroom Supplies

The supporting details behind a finished installation. Explore workroom reference pages and send us a list of the items you need.

PLAN YOUR SPECIFICATION

- 01 Include item descriptions or part numbers where available.
- 02 Specify quantities and units for each item.
- 03 Attach marked-up reference pages when helpful.

This guide introduces the collections. Confirm current finishes, specifications, compatibility, and availability with MDH before ordering.

Let's build your next project.

Send your collection, finish, measurements, quantities, mounting details, and operation requirements. Include drawings or photos when available.
